

# Your Future Village Centre Vision – Millthorpe Community Survey

Blayney Shire Council has plans to invigorate and activate the Millthorpe Village Centre. We need your ideas to start developing the schematic design!

In conjunction with the Millthorpe Village Committee (MVC), Council are looking to the community to better understand what the future looks like for Millthorpe.

The schematic design will inform the long term plan for the growth and development of the village; ensuring it meets the needs of the local community, people who visit the village and the local business owners.

This survey will establish a strong foundation to build from your thoughts, ideas and suggestions which identifies what is important to you, no matter how you interact with Millthorpe Village Centre now and into the future.
