2025/26 SCHEDULE OF FEES AND CHARGES	32

Resourcing Strategy

The Resourcing plans should be read in conjunction with the Delivery and Operational Plans. As part of the Integrated Planning and Reporting Framework councils are also required to develop resourcing plans that support the achievement of activities and tasks within the Delivery and Operational Plan.

These plans include:

Long Term Financial Plan

The Long Term Financial Plan is an important part of Council's strategic planning process. This is the point where long-term community aspirations and goals are tested against financial realities. It is also where Council and the community may decide what resources councils need to influence and work with other parties so that they might deliver on responsibilities.

Asset Management Plans

The Asset Management Policy is a Council endorsed policy which sets the broad framework for undertaking asset management in a structured and coordinated way. It outlines why and how asset management will be undertaken. It provides a clear direction for asset management and defines key principles that underpin asset management for the council.

Workforce Management Plan

Council's Resourcing Strategy documents can be accessed from its website: https://www.blayney.nsw.gov.au/council/council-information/plans-and-strategies#resourcing.

An effective workforce strategy aims to provide Council with the people best able to inform its strategic direction, develop innovative approaches to complex issues and deliver appropriate services effectively and efficiently.

Revenue Policy

Council is required to include in its Operational Plan Council's annual statement of revenue policy.

The Revenue Policy includes details of:

- Estimated income and expenditure (Income statement and capital expenditure)
- Ordinary rates and special rates
- Proposed fees and charges
- > The Council's proposed pricing methodology
- Proposed borrowings

The Local Government Act 1993 prescribes that Council may raise revenue in a number of different ways. These include rates, charges, fees, grants, borrowings and investments.

Included in this Revenue Policy is Council's income statements and capital expenditure program (4 years), rating structure, pricing policy, proposed borrowings and schedule of Fees and Charges.

How Council Raises its Revenue from Ratepayers

There are two types of revenue raised from ratepayers. The general approach adopted by Council in its revenue policy for each type of revenue is as follows:

Fees and Charges

These are the fees for particular services provided where the use of the service is discretionary or the charge only applies to the individual ratepayers who use the service. In these cases Council's policy is:

- where possible, to set the charges to recover the full attributed cost of providing the service; or
- where not possible, and therefore the cost of the service is subsidised by all ratepayers, to clearly show the extent of the subsidy. Some subsidies are unavoidable because of regulatory caps on the fee that can be charged.

Council has embarked on a program aimed at thoroughly investigating the roles and functions undertaken by Council and how these functions are funded. This will include a detailed review of service levels and the setting of fees and charges.

Rates

Rates are levied annually on each registered property owner in the Shire. Council's policy is to set rates at a level that will ensure Council's long term financial sustainability, taking into account:

- the services which the community expects Council to provide;
- the cost of maintaining and replacing assets;
- the expected level of income from grants;
- the servicing of a prudent level of borrowings, to preserve intergenerational equity; and
- the need to cover subsidies in the cost of providing services not fully recouped from fees and charges.

They are tempered by the community's ability to pay as ascertained through formal consultation.

Allocation of rate burden between ratepayers

Council recognises that rates are a tax and should therefore:

- comply with principles of taxation including equity, efficiency, simplicity and sustainability; and
- be applied for the overall public benefit of all ratepayers

In considering the rating structure for the Shire, Council seeks to achieve a reasonable and equitable distribution of the rate burden across all categories of ratepayers. It does this by structuring the rate by:

- a) dividing rateable land into sub-categories having similar characteristics;
- b) dividing the ordinary rate into:
 - i. a base rate; and
 - ii. an ad valorem rate; and
- c) using special rates where appropriate for specific projects or well defined purposes.

Categories of rateable land

Under the Local Government Act there are 4 permissible categories of rateable land: residential, farmland, business and mining. Councils have discretion to divide these categories into subcategories for the purpose of making the ordinary rates applicable to each of them. Residential sub-categories must be rural residential or based on centres of population and business subcategories must be based on centres of activity.

Ordinary Rates

Ordinary rates must be levied by Council each year. Each Council may structure its ordinary rate:

- entirely as an ad valorem rate (i.e. cents in the dollar on the Valuer-General's unimproved capital valuation), which may be subject to a minimum amount; or
- as a base amount plus an ad valorem amount, in which case the base amount for a category or sub- category cannot raise more than 50% of the rates for that category or sub-category.

Council has adopted a policy of using the second or two-part rating structure by levying a base amount plus an ad valorem amount, for the reasons explained below.

Ordinary Rates are applied to properties on the basis of independent valuations supplied to Council on all rateable properties within the Shire boundaries by Land and Property Information NSW.

In accordance with s497 of the Local Government Act 1993 the structure of the Ordinary Rate comprises:

- i. a base amount; plus
- ii. an ad valorem component (i.e. a rate levied on the unimproved land value).

Each property is categorised into one of four rating categories. The property is then subcategorised which determines the base amount and the ad valorem rate that is levied on that property.

Base amounts

The base amount, which is a component of the ordinary rate, is a set dollar amount for each subcategory. Council uses a base amount in recognition of the fact that there are basic services provided by Council and general administrative and overhead costs that benefit all properties regardless of rateable value, which in equity should be borne equally by all ratepayers. It also avoids the uneven distribution of the rate burden that would result from a wholly ad valorem rate structure. Base amounts tend to eliminate highs and lows in the total rate burden within each subcategory.

Base rates are used by Councils to reflect the costs of service provision and operational requirements of the organisation. In principle, the base rates should reflect the required costs that need to be met by a Council and its community before other works or services are provided. This includes costs associated with insurance, contributions to the NSW Rural Fire Service and Town Fire Brigades, libraries, museums, electricity and gas and some wages. In setting the base amount for each sub-category Council has sought to achieve a fair and equitable balance between the ratepayers in each sub-category and between sub- categories.

Under Local Government legislation Council is allowed to raise up to 50% of its rates income from base rates and the remainder from ad valorem rates based on the Valuer Generals assessment of a property's Unimproved Capital Value (UCV). In past years Council has set its base rates well below the 50% mark. As the costs of living have increased and government subsidies to Council have reduced, the cost of common services of Council to operate have increased.

Ad valorem rates

Once the base amount is set, the balance of the ordinary rates is calculated as a percentage of the Valuer-General's valuation for each parcel of land. It is a principle of local government rating in NSW that the majority of the rate burden is imposed based on the value of rateable property, so this must remain the primary and predominant determinant of overall rates.

The current base date for all valuations in the local government area is 1 July 2022 and was effective from 1 July 2023.

Special variations to rates

In May 2024, IPART approved Council's application for a special variation to rates for a 33.1% increase (10% p.a. over 3 years). Year 1 of the special variation (10%) was levied in 2024/25. With Council approval at the June 2025 meeting to implement Year 2 of the special variation, an increase of 10% to rates will be levied on all rateable land in the Blayney Shire.

Pensioner rates concessions

In accordance with NSW State government policy, as embodied in s.575 of the Local Government Act 1993, Council allows eligible pensioners a concession of \$250 on their assessments for rates and domestic waste management service charges and a further \$87.50 for sewerage services annual charges. Some part of this is recouped from government, but a substantial part of this concession falls to be borne by Council or, effectively, non-concessional ratepayers. For the 2024/25 year pensioner concessions were allowed on 492 rate assessments. The rates yield in the tables above is gross revenue before allowing for these concessions.

Hardship policy

Ratepayers who are suffering genuine hardship in payment of their rates may apply to Council for special consideration. This may include agreement to a periodical payment arrangement or in some cases reduction or waiver of interest on overdue rates. Full details are set out in the Pensioner and Rates Hardship Policy (policy 5E) available on Council's website.

Rates and Annual Charges

Rating Structure for the 2025/26 Rating Year

As an organisation, Council is committed to providing revenue-raising policies, which are simple, fair, uniform and more importantly acceptable to the wider community. Council, at all times, strives to make more effective, efficient and economic use of all available resources by fostering a cooperative approach within the organisation specifically and the broader community generally.

Following is the form of charges that Council will be levying on properties in the 2025/26 Financial Year.

Rating Structure for the 2025/26 Rating Year

Name of Category/ Subcategory	No. of Assessments	Base Rate	Ad Valorem		Land Value		Total Yield	Average Rate	Average Land Value	% Yield from Base Amount
Residential										
Ordinary Rate	1,199	\$ 445	0.00137159	\$	409,673,510	\$	1,095,459	\$ 913.64	\$ 341,679	48.71%
Blayney & Carcoar	1,468	\$ 445	0.00279802	\$	247,739,200	\$	1,346,439	\$ 917.19	\$ 168,760	48.52%
Millthorpe	354	\$ 445	0.00133669	\$	120,796,200	\$	318,997	\$ 901.12	\$ 341,232	49.38%
Business										
Ordinary Rate	151	\$ 575	0.00421661	\$	33,113,060	\$	226,450	\$ 1,499.67	\$ 219,292	38.34%
Business Blayney	173	\$ 575	0.00733342	\$	25,109,000	\$	283,610	\$ 1,639.36	\$ 145,139	35.07%
Business Millthorpe &										
Carcoar	57	\$ 575	0.00375020	\$	15,093,700	\$	89,379	\$ 1,586.06	\$ 264,802	36.67%
Farmland										
Ordinary Rate	709	\$ 725	0.00154409	\$	1,508,440,930	\$	2,843,194	\$ 4,010.15	\$ 2,127,561	18.08%

Mining Gold / Copper										
Combined	1	\$1,450	0.05059476	\$	116,500,000	\$	5,895,740	\$ 5,895,740	\$ 116,500,000	0.02%
Total Yield	4,113			\$ 2	2,477,029,600	\$ 13	2,125,978			

Pursuant to s.405 of the Local Government Act, Council must have for inspection at its office a map that shows the parts of its area to which each category, and sub-category, of the ordinary rate and each special rate included in the draft operational plan applied during a period of public exhibition.

These maps are available for inspection at Council's Administration Office at 91 Adelaide Street, Blayney. They may also be accessed from Council website on the Understanding Your Rates webpage: https://maps.blayney.nsw.gov.au/IntraMaps22B/?configId=561849fa-a453-4901-9724-786542cd0886

Please ensure that you select Rates under Modules at top left of screen. Press + sign for Rates Category at bottom left to include / exclude rate categories and sub-categories. You can also search for individual properties using the ADDRESS search function at bottom of screen.

For Residential Properties

A uniform sewerage charge is applied to all residential customers in accordance with the Department of Environment, Climate Change and Water Best Practice sewer pricing guidelines. Sewerage Charges have been set to meet the requirements of the State Government Best-Practice Management of Water and Sewerage guidelines that requires prices to be set based on long term strategic business planning and full cost recovery. The following wastewater (sewerage) service charges for 2025/26 are proposed:

Residential

	Access Charge	No. of Properties	Total Yield
Connected	\$864	1,588	\$1,372,032
Vacant (Unconnected)	\$444	172	\$76,368
Estimated Total Yield			\$1,448,400

For Non-Residential Properties

A two-part tariff, being a Connection Charge and a Usage Charge will be applied. Non-Residential properties include multiple occupancies, such as non-strata flats and units, and those properties which are categorised as "Business" for rating purposes.

The **Connection Charge** is determined by multiplying the access charge applicable to the water service connection size, by the Sewerage Discharge Factor (SDF).

The **Usage Charge** is the estimated % of a customer's water consumption that is discharged into the sewer. It is determined by multiplying the number of kilolitres of water consumed, by the SDF, and then by the scheduled per kilolitre usage charge determined by Council.

Council issues sewer usage charges every three months in arrears and are included on the rates instalment notice. The SDF is a customer's estimated volume discharged into the sewerage system to the customer's total water consumption. For non-residential properties the SDF varies based on the usage requirements of a customer's enterprise.

Proposed Non-Res Sewer Charges for 2025/26

	Annual Charge			
	(Prior to SDF	No. of	Quarter Charge	Min. quarterly
	Factor)	Properties	before SDF applied	amount charged
20mm Water Service	\$720	162	\$ 180	\$216
25mm Water Service	\$1,096	21	\$ 274	\$216
32mm Water Service	\$1,788	18	\$ 447	\$216
40mm Water Service	\$2,800	11	\$ 700	\$216
50mm Water Service	\$4,368	24	\$1,092	\$216
80mm Water Service	\$11,172	1	\$2,793	
100mm Water Service	\$17,516	6	\$4,379	
150mm Water Service	\$39,416	2	\$9,854	
Vacant/Unmetered	\$444	56		
Usage Charge (per kl)	\$1.83			
Estimated Total Yield				\$486,763

Future Sewerage Infrastructure Subsidy Charges

Council has prepared a Sewerage Development Servicing Plan which informs Council of the Developer Charges to be applied to new development. The Developer Charges are levied under s.64 of the Local Government Act and contribute to funding Council's future expansion of the sewerage infrastructure as a result of the new development.

The Development Servicing Plan is prepared in accordance with the 2016 Developer Charges Guidelines for Water Supply, Sewerage and Stormwater issued by the Minister for Lands and Water, pursuant to s.306(3) of the Water Management Act.

Council has elected to levy Developer Charges lower than the calculated Developer Charges for the 2 service areas, Blayney and Millthorpe. The Developer Charges have been set in consideration of financial, social and environmental factors to determine a Developer Charge which is balanced, fair and meets Council's objectives. The cross-subsidy, resulting from capping of Developer Charges, must be disclosed in Council's DSP, annual Operational Plan and Annual Report.

The amount determined per Typical Residential Bill (TRB) is disclosed below and will apply to all properties as follows:

Developer Services Subsidy Charge

,	Access Charge	No. of Properties	Total Yield
Connected - Residential	\$55	1588	\$87,340
Connected - Business	\$55	243	\$13,365
Vacant (Unconnected)	\$55	172	\$9,460
Estimated Total Yield			\$110,165

Liquid Trade Waste Charges for 2025/26

Commercial (Non-Residential)

		No. of
	Annual Fee	Properties
Annual Trade Waste Fee	\$136	67
Annual Trade Waste Fee (Large Dischargers Category 3)	\$492	1
Liquid Trade Waste User Charges with Trade Waste Agreement (Category 1, Category 2/2s)	\$2.65	55
Liquid Trade Waste User Charges with No Trade Waste Agreement	\$26.59	12
Excess Mass Chargers for Category (3 Dischargers)	\$ As per the table in fees and charges	3
Water Testing Charges (if required)	\$344.00 per quarter	1
Estimated Total Yield		\$77,880

Annual Charges – Waste Management

Domestic Waste Management services are provided to the residents of Blayney, Millthorpe, Carcoar, Lyndhurst, Neville, Panuara, Newbridge, Hobbys Yards, Barry, Forest Reefs and specific rural areas. The service includes a weekly garbage collection service and a fortnightly recycling collection service.

Domestic Waste Management Charge and the Non-Domestic Waste Management Charge reflect the cost to provide this service.

A Waste Management Levy is applied to all properties in the Blayney Shire to create an equitable contribution by all residents towards the operation of the Blayney Waste Facility, in particular management and processing of recycling and green waste, which will incur a significant increase in costs.

Annual

No of

	Annual	No. of
Charge Category and Description	Charge	Properties
Waste Management Levy	2025	5/26
Waste Management Levy This is waste management charge is applied to all properties funding waste	\$80	4,221
disposal services for the Blayney Shire		
Domestic Waste Management		
Domestic Waste Management Service Charge This is applied to properties that have a residence within the waste collection area.	\$428	2,734
Domestic Waste Management Availability Charge This charge is applied to properties within the waste collection area that do not have a service but it is available i.e. vacant land	\$80	357
Commercial (Non-Domestic) Waste Management		
Non-Domestic Waste Management Service Charge This is applied to properties for non-domestic properties within the waste collection area	\$554	334
Non-Domestic Waste Management Availability Charge This charge is applied to properties within the waste collection area that do not have a service but it is available i.e. vacant land	\$80	89
Non-Domestic Waste Service Management Charge for Charity and Not Profit Organisations This is applied to the above properties for non-domestic properties within the waste collection area	\$152	16
Extra Services		
Additional Garbage Charge – per red bin	\$394	98
Additional Recycling Charge – per yellow bin	\$160	36
Total Yield	7.00	\$1,775,352

Proposed Borrowings

Council determines borrowing requirements in conjunction with the review of its 10-year Long Term Financial Plan (LTFP). The borrowing of funds, if required, will be in accordance with Part 12 - Loans (sections 621,622,623 and 624) of the Local Government Act and the Minister of Local Government Borrowing Order.

The 2025/26 Operational Plan does not allow for any borrowings.

Pricing Policy

The delivery of goods and services within available resources provides the framework behind the determination of Council pricing structure. The recovery of costs in the provision of goods and services is considered central to the efficient operation of the organisation. Adherence to Council's pricing obligations under the Local Government Act 1993, the Local Government Regulations and other legislation may dilute Council's attempt to recover costs in the provision of some goods and services.

Council reserves the right to discount fees and charges below the cost of providing the product where it considers the benefits of this action represent the best interests of the community. Council has specifically identified that the use of the Community Centre and Sporting Facilities will be subsidised.

Council remains responsive to, but not bound by, the recommendations of other government authorities and other interested parties in relation to setting fees and charges. When determining costs Council recognises that the true costs include costs associated with the product such as administrative or supervisory costs. The true cost may also involve the recovery from current customers for future costs.

Generally, Council endeavours to recover the cost of providing the goods and services, recognising its community service obligations and the ability to pay.

In accordance with s.608 of the Local Government Act 1993 and other applicable legislation, Council charges and recovers approved fees for any services it provides as contained within its schedule of fees and charges.

All of Council's fees and charges are reviewed on an annual basis prior to the finalisation of Council's Annual Operational Plan. From time to time, other state agencies may alter statutory fees and these will be automatically updated on the Council's website. Council is authorised pursuant to s.608 to charge and recover an approved fee for any service it provides other than a service provided on an annual basis for which it makes an annual charge under s.501.

In determining its fees under s.608, Council has taken into consideration the following factors as prescribed:

- The cost to Council of providing the service
- The price suggested for that service by a relevant industry body or in any schedule of charges published from time to time by the department
- The importance of the service to the community
- Any factors specified in the regulations

Also, in accordance with s.404(5) of the Local Government Act, Council is not required to and does not provide any information in its Schedule of Fees of its pricing policy, which could confer a commercial advantage on a competition in respect to Council's business enterprises.

The Fees and Charges are provided as attachment to this document. The following are a summary of Council's pricing policy applied to its Fees and Charges:

Ref.	Pricing Policy	Description
S	Statutory	This is the amount required to be charged by legislation for this activity. Where this principle applies, Council has no discretionary power to alter the amount.
R	Regulatory	Where this principle applies fee received covers up to the maximum amount recommended by the Office of Local Government.
FC	Full Cost Recovery	Priced as to return a total cost recovery of all direct and indirect for the activities provided, including in some cases, making provision for future capital expenditure and commercial mark-ups.
PC	Partial Cost Recovery	Subsidised operations, priced well below the cost of providing this activity, which are of benefit to the community as a whole and undertaken voluntarily by Council or as a requirement of the Act. It is considered that charging at full cost recovery would deprive members of the community of the ability to participate / enjoy these activities.
PG	Public Good	Service provides a broad community benefit at zero cost recovery. It is considered impractical or inconceivable to charge for service on a user basis.
СР	s.711 Contributions Pricing	To ensure s.7.11 developer contributions reflect the costs incurred in providing infrastructure, community facilities / services, open space and recreational facilities, required to meet the additional needs of the community created by new development and by doing so, ensure the local amenity does not diminish.

Goods and Services Tax

Goods and Services Tax (GST) of 10% is payable on several services provided by the Council. In general, GST will not be payable on regulated fees and charges, unless contestable. Fees and Charges regulated under the Local Government Act include planning and development fees, zoning, development application fees and dog registration fees. GST will be generally payable on non-regulated fees unless a specific exemption applies. This document identifies where GST is applicable or is not applicable.
