BLAYNEY SHIRE COUNCIL

Village Priorities, Ideas & Action Register

2025 - 2029

Introduction

This document captures what Council heard during community engagement for the 2025 Community Strategic Plan (CSP). It is a forward-looking list of priorities, ideas and actions correlated on geographical centre basis - Blayney and then each village within Blayney Shire.

This document is not a *'Council to do list'*; it is a reference point which can be used by Council but predominantly seeking to empower our community and assist them to drive opportunities and improvement within their own village/s.

There are other Council plans, notably the 4-year Delivery Program and annual Operational Plan which also outline Council actions and projects that Council is committed to undertaking across the entire Blayney Shire.

Councils' priority remains diligent financial management. Any new or significant upgrade that may have a negative financial operational impact would need to be considered and endorsed by Council. Inclusion in this register does not constitute Council endorsement of a project.
