

## STATEMENT

# STATEMENT OF ENVIRONMENTAL EFFECTS FOR SINGLE DWELLINGS IN URBAN AREAS

### WHY IS A STATEMENT OF ENVIRONMENTAL EFFECTS REQUIRED?

A Statement of Environmental Effects (SEE) is a report which:

- Details the proposed development;
- Describes the site, including its history, constraints and context;
- Addresses compliance of the proposal with relevant planning controls and regulations; and
- Identifies and explains the potential impacts of your development proposal.

Whilst only a brief statement is required for proposals likely to have minimal impact, you must still provide a clear explanation of why there will be little impact.

### APPLICATION DETAILS

Applicant: .....

Lot/Section/DP: .....

Address: .....

### DESCRIPTION OF THE DEVELOPMENT

What is the proposed development?

.....  
.....  
.....

What building structures exist on the site?

.....  
.....

What is the wall material and colour?

.....  
.....

What is the roof material and colour?

.....  
.....

Is any cut/fill required? Yes No

Is any demolition required? Yes No

Further description:

.....  
.....  
.....  
.....

### DESCRIPTION OF THE SITE

What is the area of the site? .....

What is the current use of the site?

.....  
.....

What is the previous use of the site?

.....  
.....

Is the site subject to any natural hazards?

Flood Bushfire Other .....

Is the site subject to any other constraints?

Easements Vegetation Sloping Land

Other .....

What type of development exists on the surrounding land?

.....  
.....

Further description:

.....  
.....  
.....  
.....

## PLANNING CONTROLS

### What is the zoning?

|             |                       |                  |
|-------------|-----------------------|------------------|
| Residential | Large Lot Residential | Rural Landscape  |
| Rural       | General Industrial    | Light Industrial |

Is the proposal consistent with zone objectives? Yes No

Does the proposal comply with the Blayney Development Control Plan 2018, Part C: Residential? Yes No

Does the dwelling meet the minimum setbacks?  
Residential Large Lot Residential Rural Landscape  
Rural General Industrial Light Industrial

Is the height and scale of the dwelling and ancillary buildings sympathetic or consistent with the area? Yes No

Does the dwelling promote variation in the building variations? Yes No

Does the dwelling minimise noise impacts and maximise privacy of primary living and open spaces? Yes No

Does the fencing provide security and privacy? Yes No

### Attached garage or carport in urban areas/zones must be:

Located at least 0.5m behind the front building line and 5.5m from the front boundary? Yes No

Not exceed 50% of the front elevation of the building, garage door 6 metres in width (whichever is greater) and one (open-sided) carport in addition to the above that is setback a further 1m behind the line of the other garages/carports? Yes No

Attached carports in the front setback of existing buildings will need to demonstrate there are no other suitable locations and address the visual impact? Yes No

### Detached garages/carports/sheds/shipping containers in urban areas must be:

Located behind any existing or proposed dwelling or towards the rear of any property? Yes No

Must not exceed a ridge height of 4.8m from existing ground level? Yes No

Must not exceed a cumulative floor area (detached from the dwelling), if the lot is < 900m<sup>2</sup> in size – maximum of 96m<sup>2</sup> or if the lot is ≥ 900m<sup>2</sup> in size – maximum of 128m<sup>2</sup>? Yes No

Unobtrusive, suitably painted and/or their visual impact reduced through landscaping? Yes No

### Water tanks, pools and spas must not exceed:

In urban areas/zones water tanks, pools and spas should be located behind the front building line (i.e. not in the front setback to a public street)? Yes No

In heritage conservation areas pools and spas should be located behind the rear building line (i.e. in the rear yard) or where they are suitably screened from a public street or space? Yes No

Machinery (e.g. pumps, filtration equipment, generators or heat pumps) must be located away from sensitive areas of adjacent dwellings (e.g. bedrooms) in urban areas or suitably shielded to meet standard noise requirements? Yes No

## JUSTIFICATION

**Council may consent to a Development Application involving departure from a control contained within this DCP, but only where Council has considered a written request from the applicant that seeks to justify the departure by demonstrating:**

- Compliance with the particular control within this DCP is unreasonable or unnecessary in the circumstance of the case; and
- The objectives of the particular control are met or sufficiently addressed; and
- There are sufficient environmental planning grounds to justify the departure from the particular control within this DCP; and
- The impacts of the non-compliant proposal will not be significantly greater than a compliant proposal or may enhance the outcome.
