

DA Tracker

After a development application is properly made with Council, DA Tracker provides information on the progress of that application through to the decision stage. Details of the current status, the various stages of the assessment process and viewing publicly available documents, are available for most applications.

Information provided in DA Tracker is a general reference only. It must not be used for formal purposes such as property transactions or settlements. Access to documents and information for formal purposes must be obtained through Council's formal document search procedures.

No liability is accepted by Council (including without limitation, whether in an action of contract, negligence or other tortious action) for any loss, damage or costs (including consequential, special or indirect damages), relating to access to, use of, or reliance upon this system or any information obtained through its use.

Search applications

DA Tracker provides two searches:

1. View applications on public exhibition and make a submission
2. Search public development approvals register.

[Access the DA Tracker: https://blayney.greenlightopm.com/](https://blayney.greenlightopm.com/)

Historical applications can be searched in a PDF here:
